

**Warwick Sewer Authority (WSA) – Industrial Pretreatment Program (IPP)  
Commercial Brewery  
Application for Wastewater Discharge Permit**

On January 8<sup>th</sup>, 1984, a Resolution was adopted by the City of Warwick providing the Warwick Sewer Authority's (WSA) Industrial Pretreatment Program (IPP) with the authority to require that our City's commercial and industrial facilities complete a Wastewater Discharge Permit Application. This application provided for your completion contains a series of questions developed to obtain critical information for characterizing your facility's wastestream profile and potential to impact our collection system and/or treatment plant. This application must be filled out as completely and accurately as possible. Once our characterization is complete our IPP issues your facility a site-specific, non-transferable Wastewater Discharge Permit.

Please refer to the guidance information that follows each section when completing the application form. The guidance information provides answers to the most frequently asked questions we have received from our permittees when completing the form. Pretreatment personnel contact information, including phone numbers and email addresses, are provided at the end of the application if you require additional assistance.

Please know that timely receipt of the forms and application fee is required in order for the WSA to sign off on the Certificate of Occupancy for your facility. Late submittal will delay our sign off and perhaps the grand opening of your business. Delinquent submittal will result in enforcement action including but not limited to violation notices and fines (\$50.00/day the form remains delinquent).

When the application has been completed, please retain a **COPY for your records** and **mail the ORIGINAL** document, complete with signatures and attachments (where required) along with your application fee (see page 8, check made payable to the *Warwick Sewer Authority*) to:

**Edward Mathias, Pretreatment Coordinator  
Warwick Sewer Authority  
125 Arthur W. Devine Boulevard, Suite B  
Warwick, RI 02886**

On behalf of our Pretreatment Program, we thank you in advance for your cooperation in ensuring we receive the completed forms/fee and for your steadfast commitment to environmental protection through pretreatment compliance.

### Section 5 – Water Usage and Discharge Information

In the table provided, please complete the information requested regarding the wastewater generated by your facility. Start by reviewing your facility’s operations and identifying all locations where water is used. All businesses will have **sanitary wastewater** discharge from toilets and sinks. To estimate your sanitary waste, simply multiply the number of employees by 15 gallons *per day per shift*. Other sources of wastewater may include the waters used to clean or rinse items as part of your brewing operations; these wastewaters would be classified as **process wastewaters**. Your facility may also use water for **cooling** or **heating** operations; some or all of this water may be discharged to the sewer as wastewater. Some water purchased by your facility will not be discharged to the sewer, especially where it is consumed or evaporated in your facility’s operations (i.e., bottled product, landscaping and irrigation, cooling and heating). The types and amounts of water used in these operations should also be included in the table below.

Source	Description	Volume (gallons/day)	Discharged to Sewer (Y or N)
Restrooms: Toilets & Sinks	Sanitary Wastewater		
Process Wastewater #1			
Process Wastewater #2			
RO Waste			
Product Bottled/Kegged			NO
Non-Contact Cooling			
Other Source:			

### Section 6 – Floor Plan

Please provide a floor plan of your facility including plumbing and drains **if** not already provided directly to the WSA or with a building/plumbing permit. If you do not have a floor plan available, please submit (separate piece of paper) a sketch of your facility indicating where plumbing and drains are located.

Please make sure that your plan or sketch identifies the following if applicable:

- The location(s) of all plumbing and drains; please identify floor drains as “active” or “inactive”.
- The location(s) where wastewater exits the building; the facility may have more than one exiting line.
- The location(s) of your facility’s pretreatment system and/or equipment, i.e., solids removal, pH neutralization, or other treatment.
- Chemical and waste storage location(s).
- Sampling location(s): if your current permit requires that your wastewater is periodically collected and analyzed, please indicate the sampling location on the plan.

## Section 7 – Pretreatment

Please check off all pretreatment applications presently used on-site at your facility. Describe all other pretreatment applications currently used and/or those being considered for use on an attached sheet.

<input type="checkbox"/> Oil/Water Separation	<input type="checkbox"/> pH Neutralization	<input type="checkbox"/> Grit & Solids Removal (Traps & Tanks)
<input type="checkbox"/> Precipitation	<input type="checkbox"/> Flocculation	<input type="checkbox"/> Oxidation
<input type="checkbox"/> Evaporation	<input type="checkbox"/> Filtration	<input type="checkbox"/> Ion-Exchange Column(s)
<input type="checkbox"/> Wastes Manifested Off-Site	<input type="checkbox"/> Pretreatment Not Applicable	<input type="checkbox"/> Other: Please attach additional sheet

## Section 8 – Chemical Use and Wastes

The chemicals and materials that are used in your daily operations, as well as the wastes generated by your operations, are of great importance to the WSA. Some chemicals and wastes are strictly prohibited from directly entering the sewer system and must be manifested off-site for proper disposal. Other chemicals and wastes may be discharged to the sewer collection system, but only when discharged at or below discharge limits (concentrations) specified by the WSA. The permit issued to your company following completion and submittal of this application form will clearly identify those pollutants and concentrations that are acceptable to discharge down the drain. In the table provided below, please list all chemicals used and wastes generated in your daily operations and the method of disposal for the material. For example, your facility may be required to manifest the chemical/waste for off-site disposal or possibly the material may be consumed or evaporated in your facility's daily operations. Please provide an attachment if you require more space than provided. MSDS and/or SDS may be requested by the WSA.

Chemical/Material Name	Disposal Method (Sewer, Manifest, Evaporated, Consumed)

**Section 9 – Property Ownership Information**

“I certify under penalty of law that I am the property owner or an agent for the property owner of the property identified in Section 1 of this permit application form. I am aware of the operations conducted by the business located at this property. I understand that the Warwick Sewer Authority’s Pretreatment Program must issue a wastewater discharge permit to the business located at this property due to the nature of their operations and/or wastes generated by their operations. I acknowledge that Pretreatment Fees associated with the wastewater discharge permit are the responsibility of the permittee, i.e., the owner/operator of the business and that Sewer/Water utility charges are billed separately to me, the property owner. I am aware that unpaid/delinquent Pretreatment Fees will be associated with the property’s payment history in the City of Warwick’s utility billing software. Therefore, in order to ensure prompt payment of Pretreatment Fees owed by my tenants, I may request that a copy of my tenant’s Pretreatment bill be mailed to me at the address below, when these quarterly bills are generated and delivered to my tenant for payment.”

**Would you like a copy of your tenant’s Pretreatment Bills mailed to your attention at the property address identified above?**

**Yes**

**No**

**Important Note:** This application **will not be accepted** without the **original signature** of the property owner. If the property owner is not located on site, then it is recommended that this page be emailed to them for their signature and mailed back. If the applicant **owns the property**, the applicant/property owner **must still complete this section**.

**Section 10 – Application Certification**

Only Authorized Agents identified in Sections 2A, 2B, 2C or 2D (completed **Designation of Authorized Agent Form** found on pages 9-10) may sign this official document.

“I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violation.”
