SECTION 6 – EXTRACURRICULAR ACTIVITIES AND/OR COMMUNITY SERVICE – Applicant must provide evidence of participation in extracurricular activities and/or community service.

SECTION 7 – ESSAY - While there are many dedicated professionals in the fields of water and wastewater management who work towards improving water quality, the responsibility in actual fact lies with all citizens to make mindful efforts and minimize their environmental impact. Often these efforts are more successful when one’s local community is actively involved. In what ways could you work or volunteer within your community to raise awareness of water quality issues so as to safeguard the local environment. Please describe the actual organizations within your community with whom you could realistically work to achieve these goals (such as local environmental groups, watershed associations, or other community activist groups).

-Incomplete application submittals will not be considered for the scholarship award-
